WHY US?

Use of clean foods

- We pride ourselves on our strict health philosophy as well as the superior provenance of our ingredients to help nurture energetic & active children
- We intend to provide access to wholesome foods for all (not just those with health conscious parents)
- Our aim is to bolster better focus and performance in classrooms

Education on nutrition

- Actively involved in introducing key health, nutrition & wellness concepts during mealtimes. Children should immediately connect larger health concepts to the food they are putting on their plates. This is a unique proposition that is one of a kind in the UAE!
- Our aim is for children to eat healthy because they want to & not have to Informative sessions for all important adults in children's lives including parents, teachers, nannies to avoid any mixed messaging. These cover various topics including:
 - Cutting through the media hype / food industry propaganda to determine what to eat & avoid
 - How to read labels and become a smart shopper
 - Treating ADHD and various brain & behavioural disorders through food
 - Smart ways to break the addiction to junk food and sugar

Relationship approach

- We value our client relationships and understand that every institution will have their own approach to food & nutrition
As such, our approach in terms of both the menu & service offering is flexible and tailored to client needs
