

Coffee Morning 12.10.2021

Brief:

- Homework Policy
- Board of Trustees
- Parents Council
- Vaccination Drive
- PCR testing
- Extracurricular activities

Discussion:

- Principal explained to parents that the huge amount of work that students used to do while distance learning at home is the same amount that students are doing in class during the day. In addition to that, the school timing this year is longer than last year and students are putting a huge amount of effort during the school day. The British curriculum has KPIs which we as a school need to measure and track for each student and these cannot be measured by parents at home. Principal explained to parents the mechanism of classroom monitor. Principal asked parents to trust us regarding their children's learning. Parents expressed that they have tried both the American and the British curriculum and they found the British one more beneficial.
- Principal advised parents to give Sinopharm vaccine as it is safe for children and will help the country recover from the pandemic.
- Principal invited the attendees to be members in the Parents council.
- PCR Testing: Principal explained the PCR testing rules for students as per the latest guideline.
- ECA clubs will be two days a week instead of 3.

Meeting ended at 10:45 AM
