

Coffee Morning 21.09.2021

Brief:

- Buses and rules regulation
- PCR Testing
- Expo Trips

Discussion:

- Many students are using the bus service. The school do not intend to make trips longer for students however many circumstances are affecting bus trips especially when the locations are far from the school. Buses follow a certain route, they start from the farthest point to closest in the morning and from the closest to the farthest in the afternoon.
- Parents are informed to just go through with the bus form which they sign at the start of the session and guide their children how to use the bus, which rules they need to follow. With the parents' cooperation we can make children aware about their choices.
- We have received consents from 30% of the students' population only. Principal encouraged parents to send it. Principal shared PCR testing requirements which will change from next month.
- Principal explained the criteria and transportation cost of the trip as we will hire luxurious buses with special requirements. A lot of planning and preparation are needed as we will send each class in 1 Bus.

Meeting ended at 10:30 AM
